Need

Over the past several years, the Department has acquired public access to public waters. Boating facilities have been installed and developed. Newly-acquired sites were also developed to facilitate the boating public. Routine maintenance of older sites was conducted.

Objective

Easy and safe access to public water for boating and fishing purposes was the leading objective followed by development, maintenance, and renovation of existing sites.

Results and Benefits

As a result of increased efforts on repair and maintenance, the access sites are cleaner and safer for public use. The users have benefited from the additional facilities that were installed.

Approach

Twenty-five public access areas were maintained for boating purposes in Region 3.

Location

1. Renovation and Improvement

During the last project year, boat docks were purchased and stockpiled for installation during the next project period.

Met with personnel from Boise Cascade Corporation concerning road closure along east side of Horsethief Reservoir. Agreement was signed and gates are being installed and signed. Department personnel will assist in enforcement of the closure.

Plans are being formulated to do some tree thinning at Horsethief. The Department's forester is supervising this operation.

JOB TITLE: Motorboat Access, Region 4
PROJECT NUMBER: F-77-B-7
PROJECT LEADER: Dale Turnipseed
ASSISTANT: Dave Musil
PROJECT PERIOD: July 1, 1991-June 30,

Need:

The Department has acquired by fee title or easement access to public waters. These areas were developed in the 1960s and have since deteriorated and are in need of renovations. Small wooden toilets are presently not meeting the needs of the boating public. These toilets are substandard for the handicapped. The roads to these sites do not meet the needs of today's vehicles and are in need of upgrading..

Objective:

To provide for operation, maintenance, renovation and safer access to public waters for boating and fishing recreation and for public use of sport fish.

Results:

Increased effort on maintenance, repair and renovation will result in cleaner, safer public access areas. Improved facilities will allow more people and boats access to the public waters for boating, fishing or other recreational activities.

Approach:

Operate and maintain 15 public motorboat access areas in Region 4.

1. Maintenance, Renovation and Operation Activities:

Repairs and upkeep include cleaning toilets; controlling weeds or other unwanted vegetation; removal of refuse; pumping out toilet vaults; replacement of damaged facilities such as toilets, concrete boat ramp logs, signs, and parking barriers; painting facilities, maintaining access roads; and other repairs deemed necessary. Monitor public use.

JOB TITLE: Motorboat Access, Region 5 _____
PROJECT NUMBER: F-77-B-7 _____
PROJECT LEADER: Paul Wackenhut _____
PROJECT PERIOD: July 1, 1991-June 30, 1992 _____

The Department maintains 40 boating access areas throughout the region through ownership, leases from other agencies, or other types of contractual agreements. The Department has provided funding to some counties through written agreement to cover rental toilets, sign maintenance and litter control. Boat docks were provided for three counties. Signs were provided for installation and/or replacement as needed. Meetings were held with the Region 5 Recreational Task Force, Counties, Department of Parks and Recreation and other entities as needed.

The Department has cooperated with the Job Service through the Job Training Program Act (JTPA) to provide employment for three persons. Weed control, fence building and area cleanup were some of the jobs performed by these individuals.

Bannock County

Wiregrass Reservoir	Toilet Rental (1991)	\$ 112
	Weed Spraying	\$ 200

Bear Lake County

None

Bingham County

Tilden Bridge	Toilet Rental	\$ 200
Springfield Lake	Handicap-access toilet	\$1,000
Poison Creek	Toilet rental	

Paid to Bingham County for above rentals and service of all areas for trash pick up etc.

Met with County Waterways Committee, County Commission and Parks and Recreation Chairman several times regarding proposed plan for developing Springfield Reservoir as a fully handicapped-accessible site, and on other concerns.

Eight docks were provided for use at Springfield Reservoir and Sportsmans Park.

Caribou County

Maintenance agreement calls for the county to provide toilet rentals and other maintenance at Dike Lake, Chesterfield Reservoir, Twenty-Four Mile Reservoir, and Blackfoot Reservoir. \$1,800

Franklin County

A maintenance agreement was signed providing that the Department will pay \$1,800 and the county will rent portable toilets for Treasureton, Winder, Condie, Johnson, Lamont, and Foster Reservoirs. Handicap-accessible toilets will be provided at Glendale and Twin Lakes Reservoirs. Trash pickup and other maintenance will also be provided by the county. \$1,400

Three docks were provided each for Treasureton and Glendale reservoirs.

Met with the County Water Ways Committee Chairman and toured four of the areas. A supplement maintenance agreement was secured. Also made plans for developing Glendale Reservoir as a fully handicap accessible facility.

Oneida County

Provided 8 boat docks; 4 for use at Devils Creek Reservoir and 4 at Deep Creek Reservoir.

Met with County Waterways Chairman and toured four sites. Signed a supplemental agreement for the Department to pay \$550.00 to the county for rental toilets at Deep Creek, St. Johns, and Crowther Reservoirs. \$ 550.00

Made arrangements for servicing of existing permanent toilets at Devils Creek and Daniels Reservoirs.

Power County

The Department cooperated with various agencies in developing the final stages of the Idaho Power site (renamed Oregon Trail Crossing). This project is now complete with permanent handicapped-accessible toilets, and a permanent handicap-accessible fishing dock. The area also includes a paved, fully lighted parking area. \$13,500
